
Human Development Report 2015

- The number of people living in low human development fell by nearly 2 Billion

- Yet human progress has been uneven, human deprivation are still widespread and much human potential remains unused (1.4 B live from US \$1.25 per day / 1 B have hunger / 1.5 B no access to electricity / 2.5 B no toilet)

- Work can enhance human development but some work damages it (168 M child labourers / 21 M in forced labour)

- 1 in 3 women will experience physical /sexual violence by an intimate
